A National Historic Landmark resort, Mohonk Mountain House offers thousands of acres of unspoiled scenery. At the top of the Shawangunk Ridge, the sprawling Victorian castle perches above Lake Mohonk—a half-mile-long, sixty foot-deep sky water lake. Rock formation rise majestically from the water, and the natural surroundings remain virtually untouched since the day the Smiley family came to visit in 1869. Mohonk has 265 rooms, 138 with working fireplaces, three dining rooms, six parlors, and three inviting verandas lined with rocking chairs. The grounds feature gardens, a greenhouse, a museum, stables, a spa wing with heated indoor pool and fitness center, a beach, and sports facilities.

Registration for this event is for a two-day meeting and is priced accordingly. Hotel reservations are additional.
